

The Wellness Guide

Fostering good health

The
Company

Promoting Sustainable Healthcare since 1972

Unexo Laboratories was founded in 1972 with a vision to provide a system of holistic medicine drawing from the traditional medicine schools of Ayurveda.

For the past 41 years, the company has been providing standardized herbal healthcare products to over 40 million people across India.

GMP and Foreign Trade Certified manufacturing process

Over the past 41 years, our mission has been to contemporize the science behind traditional medicine and develop products that are safe and effective.

With production capacity exceeding 1 million tablets, 10,000 tubes and 10,000 bottles per day, Unexo remains committed to providing the best in class healthcare solutions to its customers.

Our in-house quality control department performs composition and shelf life conformance tests on every batch to ensure our customers receive safe and effective medicines

Manufacturing

A dedicated R&D & Innovation team to engineer formulations according to changing disease profiles

Our in house R&D team scouts for new innovations in medical healthcare across the world and strives to continually bring out formulations that are more potent and safe.

We have been introducing a new product or a variant an average of every 6 months based on new reported findings, clinical trials and market surveys.

Our current research focuses on improving the extraction yield from therapeutic plants and herbs to formulate more potent dosages.
